

What is your prefer name?	Could you provide a brief statement about your experience at Charter?
Bam	Unforgettable experience with a lot learning new skills and opportunities
Khing	Studying IGCSE Computer Science with Mr Parker helped me find my passion in programming
Poonya	A close-tighted community where I was able to explore my interests (through being part of the school sports team, student council member, partaking in in-school competitions and house caption), gain life-long friendships, acquired hands-on learning experiences in and outside classrooms (experiments, fieldwork, excursion etc.).
Stella	I spent my upper secondary years in Charter. I experienced a significant period of personal growth and self-discovery during my stay at Charter. Reflecting on that time, I recognize Charter as a pivotal turning point in my life. It served as a catalyst for broadening my perspectives and shaping the way I perceive the world. Moreover, Charter provided me with an abundance of valuable resources and knowledge that have continued to enrich my life ever since.
Freddie	I loved it! Wish I could go back
Love	My experience at Charter has been pleasant and comfortable throughout year 3-13. The community was welcoming and the education is great.
Jannise	The atmosphere was always very welcoming and warm, almost like family ever since the day I entered. It was the place where, so far, I have spent the majority of my life. It will always have a special place in my heart.
Jany	Charter provides me good education system and the community is really home welcoming
Best	Spent half of my life there, it's a place where it's filled with irreplaceable memories & wonderful experiences.
Peam	Charter opened up a lot of doors for me into international education and studying abroad and I was able to make great friends that still feel like family.
Momo Chan	Has been the first chairperson of the school council and the oldest student at that time. Attended all the school activities and competitions.
Fongnam	Fun, chill
Tonnam	Was my life for 10 year plus
Tan	I had a great time during my childhood here with great friends and teachers.

Gap	Charter was my second home. My memories from that school is something I will always cherish.
Pud	My time at Charter was meaningful. I made lots of friends whom I still keep in contacts with. Additionally, I would like to point out that all staffs were incredibly supportive. At Charter, I was able to effectively learn and fit into the community.
Sam	It was fun studying with my friends and with family-like teachers.
Pim	Charter is my home/ where I was always so excited to go school everyday
Tyler	A melting pot
Ashley	I was the founding Deputy Head when Ms. Julie Lane was Headteacher.
Aashi	My experience with Charter was overall fantastic with many ups and very few downs. The teachers are kind, open and caring, the same goes for the students. During my ten+ years at Charter I have made lifelong friends and learnt life long skills.
PanPan	I've met lifelong friends whom I can call family at Charter. We are such a close-knitted, student-centered school where staff and teachers really cared about us. I still have fond memories with my friends practicing for the Battle of the Bands. Whenever I think of Charter, I think of the word 'opportunity' as well. There is an abundant of opportunities for us to explore and learn through trial and error, particularly for me who wasn't so athletic but I had so many chances to join inter-school tournaments. I would like to support the school in any ways that I can, so please do reach out to me.
Kat	Warm and nurturing place for the mind. Charter is the place where I received excellent education while being able to develop and explore my individuality. I was able to make life-long friends at Charter and because of these reasons, Charter always have a special place in my heart.
Kat	Warm and nurturing place. I have studied at Charter since Year 5 and throughout those years, Charter has provided me with excellent education while also allowing me to develop and explore myself as an individual. Also at Charter, I was able to make life long friends and because of these reasons, Charter will always have a special place in my heart.
P	Class was great teacher are very supportive
Book	Class was so small and concentrated. Great place to study.
Pete	It was a friendly and interesting experience. My teachers were very interested in us doing well and ensured that we would do so. The school as a whole had a warm environment making it easy to enjoy my time there.
Lizzy	From when I joined charter in year 8 until I left in year 13, we were always encouraged to engage in the world around us outside of our home and school lives; taught to care and be compassionate for, not only immediate traditions and culture, but for everything we learn about and interact with. Lessons like

	GP, Geography, and History taught the way they are at Charter is probably one of the largest contributing reasons as to why I am doing my degree at a university so internationally minded as SOAS is.
Fame	Academically, Charter (IGCSE) has provided me with knowledge that was able to go on par or exceeded the contents of higher education. Socially, Charter has also provided with life-long friends as well, most of which I still communicate with on a near daily basis.
Avy	Good was fun
Japan	Very cozy and friendly environment. 👍
Ploy	It was really good. Loved how supportive everyone was and it felt like they really cared about us as students.
Arsikan	Amazing experience at Charter, met great people and the school provided good academic backgrounds for me making me quite ready for uni at the time.
Lookkaew	I had good experience. I enjoyed.
Penny	Fun and most memorable
Book	Awesome place.
Peace	Very good
Frank	Nice
RuiRui	Good
Kan	I joined Charter back in Year 6 for class of 2024. The class with Alvin, Rachel, Time and the others. Throughout the years I participated in numerous events there such as sports TISAC, yearly chess competition, Fobisia Math and VEX Robotics competition. I also secured the champion position for VEX IQ and a spot to go to America with Alvin, Jany and Kaow. I had a lot of fun with my friends but eventually, I had to set out for my future since the opportunity arises. COVID-19 and online learning had driven me to jump ahead and enter university early as I deemed that there were more for my personal benefit. My friends will be graduating soon.
